Food Processing Engineer
Export Director

 **SELIS**

SILVERNOX

- Innovations on Selis **SILVERNOX** sifter;

1- Manufacturing of the sieving units as monoblock – frame and without dividings between the passages

SILVERNOX

- 1- Manufacturing of the sieving units as monoblock – frame and without dividings between the passages

 **SELIS**

SILVERNOX

2- Sieving passages are divided with stainless steel mobile plates which can dismantle.

 **SELIS**

SILVERNOX

3- Condensation in the sieving passages reduced dramatically by using special panels between sieving passage walls.

 **SELiS**

SILVERNOX

4- Insulation struts ,which are used in order to insulate the sieving frame bulks , are manufactured from aluminium profiles with seal channels and specially designed spaces ,results maximum insulation.

SILVERNOX

Bottom line.....

- Reduces maintenance cost and time
- Reduced downtime
- Maximum insulation
- High quality end product, higher extraction
