Fill Polypropylene at speed

FAWEMA

Loading the bag

- Elevator bag magazine
- Able to load any type of bag into the machine

Filling of the bag

- Clamping the bag ensures proper filling of any bag size or type
- Keeping the bag clamped to the hopper while moving improves speed of machine

Fill Polypropylene at speed

FAWEMA

Filling of the bag

Flour slides on the
Inside of fill hopper

Air can freely escape
through fill hopper,
without being trapped
in bag

Vibrating Track
