# GrainCorp ... your grain partner

## **We don't just buy and sell grain. We make something of it.**

As an owner of Australia's largest human consumption flour miller, and the world's fourth largest commercial malt producer, we understand what customers want from grain.

Established in 1916, GrainCorp began as an initiative by the New South Wales Government to develop the bulk grain handling system in Australia. In 1918, GrainCorp built its first grain elevator in Peak Hill, and it commissioned Australia's first bulk grain export terminal in Sydney in 1922. Today, GrainCorp is more than a bulk grain handler and marketer; with a majority share holding in Allied Mills and malthouses across Australia, North America and the

United Kingdom, GrainCorp today is a leading international agribusiness connecting consumers to growers along the grain chain. With over 15 years of experience running Pools, GrainCorp Trading has sites based in Australia, Singapore, the UK and Germany and has established a reputation as a competitive and trustworthy buyer of grains from farmers, and supplier to domestic and international customers. For more information visit: [www.graincorp.com.au](http://www.graincorp.com.au)

**GrainCorp**

**GrainCorp**

# GrainCorp ... your grain partner

## Customer Commitment

GrainCorp is committed to developing long term partnerships and building customer value by:

- Reliably and consistently supplying quality grain
- Working with customers to develop supply chain solutions that suit individual buyer requirements and production needs

Come and see us at Stand 01 to discuss your wheat needs.

**GrainCorp**

Jordan is one of the most fascinating countries in the world; bursting with potential for desert adventures and certain relaxation at the world-class Dead Sea spas. The Nabateans, Greeks, Romans, Ottomans and Arabs have all left their traces at the several thousand archeological and historic sites.

Experience the magic of Petra; one of the new Seven Wonders of the World. Watch the sunrise in Wadi Rum; the desert made famous by Lawrence of Arabia and Indiana Jones. Dive into the warm waters of the Red Sea from the beaches of Aqaba. Nourish your body and soul with the exceptional treatments at the Dead Sea Spas. Come experience it for yourself! Jordan leaves no one unimpressed.

It is my pleasure and privilege to host the 22nd Annual International Association of Operative Millers Mideast and Africa District Conference and Expo which will be held in the Dead Sea, Jordan from 2 - 5 October 2011 once again in Jordan after "11 years". This time we strive to offer a different and new experience in the Dead Sea and also "refresh the beautiful memories" of Amman where the previous conference was held.

The Dead Sea is becoming a more and more popular destination for Conferences and Events. The whole country has a very well developed infrastructure and good flight connections to the capital Amman. Jordan is home to countless destinations and attractions, like Wadi Rum and Petra making it very interesting and exciting for all delegates and spouses to extend their stay after the Conference & Expo.

My predecessor last year reminded us of the responsibilities attached to the coming of age of the IAOM-MEA District. The milling industry and its support services are a crucial link in the food security value chain. Let us use this wonderful opportunity to listen attentively to the new innovations and suggestions to improve our part in the food value chain to the advantage of all and the Middle East district.

I would like to thank our Sponsors, Exhibitors and the IAOM MEA Staff to make this a success and we wish all delegates a fruitful and successful Conference and Expo!

**Yula Karaviotes**

22<sup>nd</sup> Annual IAOM-Mideast and Africa District Conference Chairperson

Welcome to the Dead Sea, Jordan, for the 22nd Annual IAOM Mideast & Africa District Conference & Expo!

We are very pleased you have been able to join us here in Jordan. This country has grown into a modern nation which has enjoyed a remarkable measure of peace, stability and economic growth in recent decades.

Hope you enjoy the diverse conference program, aimed at giving everyone the unique opportunity to listen to the industry's most esteemed and influential professionals. The first day of this years' Conference will consist of management issues such as Sustainability, Corporate Social Responsibility, Corporate Strategy and Human Resources. The second day will consist of Technical and Educational Presentations and What's New sessions, which are designed to address milling innovations, trends and challenges. The last day will be dedicated for the trading session to discuss the grain and crop situation worldwide.

The Expo facilities at the Dead Sea are fantastic in terms of space and layout with more than 2,000 sqm dedicated only to the exhibition making it logistically very convenient for all exhibitors and participants. All selected Conference hotels enjoy 4\*-5\* ratings and are located directly at the Dead Sea connected through a shuttle bus to the Convention Centre at the Dead Sea. The Conference & Expo is your link to the latest research and technological developments in the milling industry and helps you to get up face to face with the top professionals in our field. We will also be offering complimentary WIFI throughout the Convention Centre and an exclusive VIP room at the Convention Centre for one- to- one meeting.

With approximately 600 registered guests and approximately 100 stands in the Expo area this is sure to be a memorable and exciting event. Aside from the Educational Sessions the evening events are an excellent opportunity to network with existing business partners as well as to establish valuable and new contacts in the industry.

Finally, I would like to thank you, the participants and our esteemed Sponsors, Exhibitors of the Conference and the IAOM MEA Staff for your kind support. As this Conference would not be the same without your input and contribution.

I wish you a successful event.

### **CLASSIC STYLE CC-HD**

- The most specified style in North America.
- Straight sides provide direct and compact discharge pattern.
- Designed to discharge over the widest range of speeds and pulley diameters.
- Easily modified to the low profile configuration for high throughput elevators.
- All sizes available in polyethylene, nylon and urethane.

### **SUPER EUROBUCKET™**

- Direct interchange and replacement of existing pressed steel buckets.
- Safer – Nonmetallic materials eliminate possible sparking from bent and torn steel buckets.
- Equal or greater carrying capacities of steel buckets.
- Thick walls provide superior impact strength and long life.
- Popular sizes in stock for immediate shipment.

## **Tapco Buckets Make a World of Difference in Your Elevator Facility.**

Replace your buckets with the two most popular bucket designs in the world! These incredible buckets will fit your elevator no matter where in the world you operate your facility.

For North American style elevators: the classic CC-HD

design. For European style elevators: the Super EuroBucket.

Get what you want, when you need it. There's a Tapco bucket for every application.

- 900,000 buckets in 93 sizes
- 15 million bolts in 6 styles
- Fasteners, liners & accessories

In stock worldwide, and ready to ship. Contact us today to find out how to get the most from your elevator. Or visit [www.tapcoinc.com](http://www.tapcoinc.com) and tap into a world of experience.

### About IAOM

#### Developing Educational and Technical Proficiency in the 21st Century

The International Association of Operative Millers (IAOM) is an international organization comprised of grain millers and allied trade representatives and companies devoted to the advancement of technology in the grain milling and seed processing industries. IAOM promotes a spirit of fellowship and cooperation among members, as well as advances members' interests in industry activities. With districts in the Asia-Pacific, Eurasia, Latin America, the Middle East & Africa, and throughout North America, IAOM provides an international forum for networking, the exchange of ideas, technical and educational opportunities, and the discovery of new products and services.

#### IAOM Membership Benefits include:

##### Subscription to International Miller

A valuable source of technical information and description of the latest developments in the various areas associated with milling and grain processing. Contributors are highly regarded professionals in their respective fields. The magazine also reports the activities of the association, its districts and standing committees, and other industry-specific news.

##### Access to Member-only sections of the IAOM Website

IAOM members enjoy access to special areas of the website where they can search past Technical Bulletins, view and listen to recordings of past conference presentations, and search IAOM's online member database.

##### Subscription to Annual Membership Directory

This user-friendly compendium of IAOM members is not available for sale, and provides the opportunity for networking with other professionals around the world involved in the industry. The Directory lists milling professionals, as well as suppliers who provide products and/or services to the industry. Individual listings include contact names, company names, addresses, phone numbers, fax numbers, websites and e-mail addresses.

##### Networking Opportunities

By attending district meetings, conferences and expos, members are able to enhance and advance their careers through comprehensive education programs; connect with their industry peers at exciting networking events; and develop relationships with vendors who offer the products and services they need to efficiently do their job.

##### Discounted tickets to the industry's premier milling conferences and expos

The IAOM Annual Meeting – the premier educational event for grain milling and seed processing professionals. The annual event gathers milling and allied trade professionals from around the world for two full days of education, networking and fellowship.

The Annual IAOM Mideast & Africa District Conference – gathers together all of the operative millers of the region, as well as their upstream and downstream partners.

### **Discounted fees for the leading milling educational short courses and Correspondence Course**

Developed and reviewed by industry experts, the IAOM Correspondence Course in Flour Milling is comprised of eight units encompassing all aspects of flour milling from wheat cleaning, basic milling principles, storage and grain handling to milled-grain product additives, plant management and mill mechanics. One unit is dedicated to an overview of how to mill other grains.

The Units are divided into lessons, with a testing component at the conclusion of each lesson. The testing option is available online or by hard copy. A certificate is issued on the successful completion of each unit, with a diploma issued to the student upon the successful completion of Unit 8.

### **IAOM-KSU Resident Milling Courses**

In cooperation with Kansas State University's Department of Grain Science and Industry, IAOM offers a lineup of eight, weeklong short courses designed for those who wish to advance their skills or careers in the milling industry. The IAOM Resident Short Courses at KSU provide hands-on instruction by the same outstanding KSU faculty who teach degree-seeking students. The Grain Science and Industry department is the only program of its kind in the United States, and is distinguished worldwide.

Millers

## Sunday - October 2, 2011

Time	Program	Sponsored by	Location
08:00-16:00	Registration		KHBTCC
18:30-23:00	WELCOME RECEPTION	Bühler AG & Sefar AG	Holiday Inn Resort

## Monday-October 3, 2011

Time	Category	Program	Company	Speaker/Location
08:00-09:00		Registration		KHBTCC
08:15-13:00		Optional Spouse Program *		
09:00-09:10	Introduction	Official Conference Opening by Conference Chairperson	Amman Grand Flour Mills	Mrs. Yula Karaviotes
09:10-09:15	Introduction	Welcome Speech by IAOM-MEA District Director	Khoushe Fars Flour Mills (KFF Mills)	Mr. Merzad Jamshidi
09:15-09:25	Speech	Opening Speech	Jordan Official	
09:25-09:30	Speech	Introductory Speech-Global Food Security	U.S. Wheat Associates Inc.	Mr. Alan Tracy
09:30-09:40	Country Focus-Turkey	The Principle of Sustainability and Export Oriented Production Strategy	Turkish Flour Industrialists' Federation	Mr. Erhan Özmen
09:40-09:55		Group Photo	Sponsored by: Al Ghurair Resources LLC	KHBTCC
09:55-10:00		Official Expo Opening		
10:00-16:00		EXPO		
10:00-10:25		COFFEE BREAK		Expo Hall Area
10:25-13:30		MANAGEMENT SESSION Session chairman/ Moderator: Mr. Martin Schlauri		Conference Room
10:25 -10:30		FFI Recognition Award	Flour Fortification Initiative	

\* Details available at the Tour Desk.

<b>Monday-October 3, 2011</b>					
Time	Paper No.	Paper Category	Topic / Program	Company	Speaker
10:30-11:00	Paper #1	MGT	Strategic Planning	U.S. Wheat Associates Inc.	Mr. Brad Allen Hover
11:00-11:30	Paper # 2	MGT	Total Quality Management Issues in Milling Management/ Use of Running Averages in Milling Operation	Kansas State University	Dr. Jeff Gwartz
11:30-12:00	Paper # 3	MGT	Diversification Strategies of the Milling Industry	Bühler AG	Mr. Christopher Rubin
12:00-12:30	Paper #4	MGT	Employee Training /Knowledge is Productivity/Training for the Future /Knowledge is Power	International Grains Program	Mr. Mark Fowler
12:30-14:00	Work Shop		Strategy Management Workshop for a Milling Company	Corporate Strategy & Planning for Public Works Authority, Qatar	Mr. Lambros Karavis
14:00-15:30			LUNCH BREAK	Sponsored by: Canadian Wheat Board	Location: KHBTC
14:00-16:00			IAOM MEA Leadership Council - Meeting		Location: KHBTC
19:30-22:30			Traders' Dinner	Sponsored by Bunge, Cargill, Concordia, Glencore, Noble Resources, Seagrain, Gavilon	Location: O-Beach

Tuesday - October 4, 2011					
Time	Paper No.	Paper Category	Topic / Program	Company	Speaker
09:00-13:00			Optional Spouse Program *		
09:00-16:00			EXPO		
09:00-11:35			TECHNICAL/ EDUCATIONAL PRESENTATIONS Session Chairman/ Moderator: Dr. M. Hikmet Boyacioglu		Location: Conference Room
09:00-09:20	TP-01	Technical	Hard and Soft Wheat Milling	U.S. Wheat Associates Inc.	Mr. Peter Lloyd
09:20-09:40	TP-02	Technical	Gluten Replacer	Mühlenchemie GmbH & Co. KG	Dr. Lutz Popper
09:40-10:00	TP-03	Technical	Step by Step Wheat Farming, Flour Milling & Quality	GrainCorp Operations Limited	Dr. Irfan Hashmi
10:00-10:30			COFFEE BREAK	Sponsored by: Imas Makina	Location: Expo Hall Area
10:30-10:50	TP-04	Technical	Key Factors to Drive Efficiency in a Flour Mill	Bühler AG	Mr. Rabi Al-Halabi
10:50-11:10	TP-05	Technical	Impact of Information Technologies in Building Milling Skills	Morocco- Milling Institute	Mr. Mahjoub Sahaba
11:10-11:30	TP-06	Technical	Environmental Sustainability: What it means to the Flour Milling Industry	Canadian Wheat Board	Mr. Graham Worden
11:30-11:50	TP-07	Technical	Taste Panel Study on Foods Made from Fortified Wheat and Maize Flour	Flour Fortification Initiative	Mr. Quentin Johnson
11:50-13:40			WHAT'S NEW SESSION		Location: Conference Room

\* Details available at the Tour Desk.

<b>Tuesday - October 4, 2011</b>					
Time	Paper No.	Paper Category	Topic / Program	Company	Speaker
11:50-12:00	WN # 1	What's New	Galileo New Concept in Sifting	Omas S.r.l-Italy	Mr. Pietro Barbalarga
12:00-12:10	WN # 2	What's New	New Generation Roller Mills & Plansifters	Selis-Turkey	Mr.Temel Harmankaya
12:10-12:20	WN # 3	What's New	NIR Master	Buchi Labortechnik AG-Switzerland	Dr.Giovanni Campolongo
12:20-12:30	WN # 4	What's New	Flour Mixing Concept for Consistent Flour	Buhler AG -Switzerland	Mr. Walter Bruggman
12:30-12:40	WN # 5	What's New	Wireless Temperature Monitoring in Silos and Storage	Agromatic AG Switzerland	Mr. Tobias Diener
12:40-12:50	WN # 6	What's New	Recent Development in Rheological Instruments	Brabender GmbH-Germany	Mr. Markus Loens
12:50-13:00	WN # 7	What's New	New Innovative Bag Closure for Flour	Chronos BTH - The Netherlands	Mr. Issam Baydoun
13:00-13.10	WN # 8	What's New	Product Drying Technology for Pasta and Precooked Semolina	Clextral-France	Mr. Mohamed Lammi
13.10-13:20	WN # 9	What's New	BIPEA- Labs	BIPEA-France	Mr. Bruno Berken
13:20-13:30	WN #10	What's New	Modernization of the Bag Closing Lines in the Milling Industry	Fischbein S.A - Belgium	Mr. Rene Bontemps
13:30-13:40	WN #11	What's New	Multi sensor system for online/inline inspection/monitoring of flour quality	Bran Scan Limited - UK	Mr. Aytun Erdentug
13:40-13:50	WN #12	What's New	New solutions from Perten Instruments	Perten Instruments AB -Sweden	Mr.Gunnar Nilsson
13:40-15:40			LUNCH BREAK	Sponsored by: Alapala	Location: KHBTC
14:00-16:00			IAOM MEA - Education Committee Meeting		Location: KHBTC
19:30-22:30			U.S. Wheat Dinner	Sponsored by: U.S Wheat Associates Inc.	Location: Marriott Hotel

## IAOM CONFERENCE PROGRAM

### Wednesday - October 5, 2011

Time	Paper No.	Paper Category	Topic / Program	Company	Speaker
09:00-16:00			Optional Spouse Program *		
09:00-16:00			EXPO		
09:00-13:10			TRADING SESSION Session Chairman/ Moderator- Mr. Simon Arnold and Mr. Djamal Djouhri		Location: Conference Room
09:00-09:20	TS # 1	Trading Seminar	American Outlook	U.S. Wheat Associates	Mr. Randy Sues
09:20-09:40	TS # 2	Trading Seminar	Australian grains perspective	GrainCorp Operations Limited	Mr. Chris Whitwell
09:40-10:00	TS # 3	Trading Seminar	Canadian Wheat Situation	Canadian Wheat Board	Mr. Jean-Benoit Gauthier
10:00-10:20	TS # 4	Trading Seminar	French Crop Quality and Quantity	France Export Cerealse	Mr. Francois Gatel
10:20-10:40	TS # 5	Trading Seminar	EU Wheat Situation	Bunge Limited	Mr. Romuald Veru
10:40-11:30			COFFEE BREAK		Location: Expo Hall Area
11:30-11:50	TS # 6	Trading Seminar	Russia/Kazakhstan/ Ukraine Wheat Situation	Cargill International SA	Mr. Alex Gruber

## EXHIBITORS & COMPANY PROFILE

### 4B BRAIME ELEVATOR COMPONENTS

#### Stand C15

Mr. Carl Braime  
Hunslet Road, Leeds LS10 1JZ, UK  
Tel: +441132461800, Fax: +441132435021  
Email: 4b-uk@go4b.com Website: www.go4b.com

An international market leader in the field of bucket elevator and conveyor components and electronic monitoring equipment, 4B Braime Elevator Components has a long history in serving the milling and agricultural industries. 4B has been leading the field in elevator bucket and bolt design and manufacture and supplying the highest quality forged chain and elevator belting. 4B's electronic division specializes in level controls, electric sensors and safety control systems that prevent costly downtime and reduce the risks of explosions in hazardous areas. 4B's electronics range includes bearing temperature sensors, belt and pulley misalignment sensors, (under) speed switches, level and choke switches and combined monitoring systems.

### AG GROWTH INTERNATIONAL (AGI)

#### Stand 014

Mr. Joerg Zimmermann  
1301 Kenaston Blvd, Winnipeg, MB, Canada  
Tel: +12044891855, Fax: +14155256211  
Email: Joerg.Zimmermann@aggrowth.com Website: www.aggrowth.com

AGI is a leading Manufacturer of grain handling, storage and conditioning equipment. Our brand includes:

- Hi roller enclosed, dust tight and self-reloading conveyors designed for grain handling facilities, soy and corn processing and industrial operations.
- Union iron's commercial grain handling and storage equipment including conveyors, bucket elevators, temporary storage systems, distributors, facility load out and structural equipment.
- Tramco bulk material handling equipment including chain conveyors, enclosed belt conveyors and bucket elevators, primarily designed for grain and oilseed processing industry.
- Grain Guard's state of the art, flat bottom grain storage bin line, complete catalog of aeration and conditioning equipment.

### **AGREX**

#### **Stand 017**

Mr. Silvano Silva  
Via Balla 55/57 - Villafranca Padovana, Padova, Italy

Email: [pclemente@agrex.com](mailto:pclemente@agrex.com), [ssilva@agrex.com](mailto:ssilva@agrex.com) Website: [www.agrex.it](http://www.agrex.it)

Manufacturer of Horizontal Flour Mills. Our equipment is worldwide known for the quality and performance. We manufacture mills for any kind of grain including soft and hard wheat, durum, barley, kamut, corn, buckwheat, rice etc.

### **AGROMATIC AG**

#### **Stand A11**

Mr. Tobias Diener  
Goldingerstrasse 30, CH-8637 Laupen ZH, Switzerland  
Tel: +41552562100, Fax: +4155256211  
Email: [info@afgromatic.com](mailto:info@afgromatic.com) Website: [www.agromatic.com](http://www.agromatic.com)

Swiss Manufacturer of safety and monitoring systems such as:

Temperature monitoring systems, level monitoring systems, speed and alignment control sensors for elevators, laboratory equipment, metal detection and separation units.

### **AIT INGREDIENTS**

#### **Stand D 04**

Mr. Olivier Jouffreau  
7 Quai De L' Apport Paris, France  
Tel: +33160500510, Fax: +33160500511  
Email: [ojouffreau@soufflet-group.com](mailto:ojouffreau@soufflet-group.com) Website: [www.ait-ingredients.com](http://www.ait-ingredients.com)

AIT Ingredients develops and sells Cereal Based Solutions for the food industry and millers in France and in over more than 30 countries. As an Expert of Cereals and Enzyme fields, AIT Ingredients offers its customers a range of solutions suited to their particular needs.

Technicit : Improvers and Correctors  
Activit : Ingredient Solutions (Enzymes, Emulsifiers, Gluten...)  
Creativit : Malted/Roasted Cereal Ingredients  
Praticit : More than 150 recipes of Mixes and Concentrates.

## EXHIBITORS & COMPANY PROFILE

### AL GHURAIR RESOURCES LLC

#### Stand A5

Mr. Seyed Moineddin Ahmad

i 66, Al Ghubaiba Road, Bur Dubai, P.O. Box 5326, Dubai

We, as Alapala Group, would like to introduce ourselves, as one of the leading flour, semolina, maize and feed milling plant and machinery manufacturing companies in the world and the leading manufacturing company in Turkey.

We use the latest technology & machinery to produce our plants, machineries and related equipments.

We have references in more than 70 different countries and representatives in 32 countries.

Our supply programme is as follows:

- Flour mills - soft, hard and durum wheat
- Maize mills
- Rice mills
- Feed mills
- Silos and storage systems for all products
- Weighing, conveying and packing systems
- Flour blending systems
- Port handling systems
- Spare parts
- Steel structure buildings

Our points of strength are planning synergy, supply versatility, punctuality, flexibility and our enthusiasm to serve our clients from the preliminary projects up to the complete after sales service.

**ALTINBILEK****Stand D 10**

Mr. Tuncer tekkalmaz  
ORGANIZE SANAYİ BÖLGESİ 9.CADDE NO:5 ESKİŞEHİR, TURKEY  
Tel: +902222361399, Fax: +902222361397  
Email [info@altinbilekmakina.com.tr](mailto:info@altinbilekmakina.com.tr) Website: [www.abms.com.tr](http://www.abms.com.tr)

Altinbilek Machinery was founded by Kadir Bilek in 1974 and is currently carrying out its activities on an area of 10.000m<sup>2</sup> at Eskişehir Organized Industrial Zone.

Its manufacturing range consists of storage systems such as cereal transport systems, feed machinery, mixers, grinding machinery, cereal, flour, wheat, bran, semolina and temper silos with their accessories. It is one of the leading companies of Turkey in manufacture of high capacity chain conveyors, belt conveyors, bucket elevators, screw conveyors, various steel silo components and accessories. More than 80 the largest key-turn facilities installed so far have been operating problem-free for years. Our company has been certified with ISO-9001 Quality Assurance Certificate.

Altinbilek Machinery has made its name with turn-key facilities, machinery and equipments not only inland, but also abroad; our aim is to satisfy our customers unconditionally from the smallest spare part to turn-key plants, to support our manufacture with technological developments and to become the company to exist in future considering human and environment factors while establishing quality and effective plants.

**ALTUNTASHAV. VE HAYV .SAN.TIC . A.S.****Stand B11**

Mr. Aybek Kali  
Aksaray – Adana Road, 18th Km. Centre- 68100 Aksaray, Turkey

Aytun Erdentug

Celsius House, Antree Road, Keytec Business Park, Pershore, Worcestershire, UK

Tel: +441386556330, Fax: +441386552671

Email: [aerdentug@branscan.com](mailto:aerdentug@branscan.com) Website: [www.branscan.com](http://www.branscan.com)

Branscan has been supplying visual inspection to the food industry for nearly 20 years.

It has now expanded to combine NIR (near infra red) technology and image analysis in a modular system capable of looking for low level moisture and protein.

The Innirscan Nir is a diode array scanner in a modular concept, and a multiplexer makes it possible to run up to 4 heads.

The contact head allows the sample to be captured after scanning and diverted to an attached sample cup for laboratory analysis.

Ultimate process control and resultant cost savings make Innirscan the ultimate millers' tool.

### BUCHI LABORTECHNIK AG

#### Stand A10

BUCHI Labortechnik AG, Switzerland is a leading world-wide supplier in key technologies such as evaporation and separation for research laboratories as well as near infrared spectroscopy and distillation and extraction for quality control purposes. The main product lines are Evaporation, Separation, Kjeldahl Distillation, Extraction and NIR solution. Our goal is to sustain a high level of competence in product development, manufacturing and application around these technologies.

We believe that providing high quality products and responsive service will support the innovation and effectiveness of our customers. All our products comply with our philosophy of "Quality in your hands".

We strive to develop products and solutions that are solid, cleverly designed, convenient and easy to use in order to fulfill customer needs to the highest degree.

The revolutionary NIRMaste<sup>TM</sup> is the new generation of the proven BUCHI FT-NIR spectrometer. It is the first standalone FTNIR spectrometer in the world.

It satisfies the needs of the food or feed industry especially in the production environment where rugged and protected instruments are required. Efficient and time saving with Feed, Forages, Meat, Dairy, Flours and Bakery, quick-start calibrations, characterized by no need for standardization.

There is also a dedicated Buchi NIR instrument for Milling industry which is supplied along with start up application for Milling industry parameters.

Omas Srl was created in 1966 and is the first of four enterprises that today are part of the industrial Nalon group. The company started as a sub supplier of milling machinery and later decided to promote its products with its own brand name. In a short time, Omas grew to be successful in national and international markets with cereal processing customers in more than 50 countries. Reference plants are operating in Oceania, America, Europe, Africa and Asia. Omas is able to develop any industrial cereal processing project from upgrading to the supply of turnkey milling plants of every capacity and for grinding every kind of cereal.

The milling division can design, manufacture and assemble plants for the processing of soft, hard and durum wheat, corn, rye, oats, rice and more.

Omas's technical department's latest development is the Galileo Plansifter which has an Aluminium Alloy extruded Profile holding frame and sifting box housing realized in stainless steel AISI 304 BA panel insulated by 25 mm of water-based foam with 0,35w/m2K of thermal conductivity. For additional information, visit [www.omas-srl.com](http://www.omas-srl.com).
